Samarang Japan Value Class A2 DISTRIBUTION (LU1258454013)

a sub-fund of Samarang Ucits

This Fund is managed by Samarang Asset Management S.A.

OBJECTIVES AND INVESTMENT POLICY

- The sub-fund seeks to achieve long-term appreciation by an active management of the portfolio made up of Japanese equities.
- The portfolio of the sub-fund will comprise a focused selection of Japanese listed or orientated stocks.
- The sub-fund's equity exposure must be essentially in listed Japanese stocks.
- The sub-fund may invest on an ancillary basis in equities of other developed or emerging markets or convertible bonds.
- The sub-fund may use financial derivative instruments for investment and/or hedging purposes, such as but not limited to futures, options, warrants and forwards.
- The sub-fund is actively managed on a total return basis. Regional benchmarks include Tokyo Stock Price Index (in \$) and Tokyo Stock Price Small Cap Index (in \$). The sub-fund is not managed specifically against these indices.
- Shareholders may redeem shares on demand, on a weekly basis (Friday).
- Distribution shares: The distribution of dividends to the shareholders in the class may be proposed by the Board of Directors depending upon overall levels of income received from the sub-fund's investments for this class.
- Please note that transaction costs may have material impact on performance.
- *Recommendation: this sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.*
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.

RISK AND REWARD PROFILE

- Historical data used may not be a reliable indication of the future risk profile of the sub-fund.
- This category is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean that the investment is risk free.
- This sub-fund was categorised in risk category 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high. This indicator is based on the historical volatility of the reference portfolio over the last 5 years and places the sub-fund in this category.

- The sub-fund is in a high risk category because price of equities on developed and emerging Asian markets may be subject to frequent and large variations.

The sub-fund is subject to the following risks:

- **Liquidity risk:** securities in the sub-fund may become more illiquid during extreme market conditions and may be difficult for shareholders to collect redemption proceeds in a timely manner.
- **Use of derivatives:** derivatives may be used for investment and/or hedging purposes.
- **Currency risk:** the risk that an investment's value will be affected by changes in exchange rates.
- **Equity risk:** The value of equities and equity-related securities can be affected by daily stock market movements.
- **Market risk:** including emerging and less developed markets.
- **Sustainability risks:** Risk of the occurrence of an environmental, social or governance event or condition that could cause an actual or a potential material negative impact on the value of the investment.
