What is this product?

Type

This product is a Luxembourg open-ended investment fund established as an investment company with variable capital formed as a public limited company in accordance with the Luxembourg Law of December 17, 2010, concerning undertakings for collective investment as may be amended from time to time (the "Law of 2010").

Objectives

Investment objective The sub-fund seeks to achieve long-term appreciation by an active management of the portfolio made up of Japanese equities.

SFDR Classification This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.

Investment approach The portfolio of the sub-fund will comprise a focused selection of Japanese listed or orientated stocks.

Investment policies The sub-fund's equity exposure must be essentially in listed Japanese stocks.

The sub-fund may invest on an ancillary basis in equities of other developed or emerging markets or convertible bonds.

The sub-fund may use financial derivative instruments for investment and/or hedging purposes, such as but not limited to futures, options, warrants and forwards.

Benchmark uses The sub-fund is actively managed on a total return basis. Regional benchmarks include Tokyo Stock Price Index (in \$) and Tokyo Stock Price Small Cap Index (in \$). The sub-fund is not managed specifically against these indices.

Risks applicable to the product The sub-fund is subject to the following risks:

- Liquidity risk: securities in the sub-fund may become more illiquid during extreme market conditions and may be difficult for shareholders to collect redemption proceeds in a timely manner.
- Use of derivatives: derivatives may be used for investment and/or hedging purposes.
- Currency risk: the risk that an investment's value will be affected by changes in exchange rates.
- Equity risk: The value of equities and equity-related securities can be affected by daily stock market movements.
- Market risk: including emerging and less developed markets.

- Sustainability risks: Risk of the occurrence of an environmental, social or governance event or condition that could cause an actual or a potential material negative impact on the value of the investment.

Redemption and Dealing Shares of Samarang UCITS may be redeemed on demand, with dealing on a weekly basis.

Distribution Policy Distribution shares: The distribution of dividends to the shareholders in the class may be proposed by the Board of Directors depending upon overall levels of income received from the Sub-Fund's investments for this Class.

Product Term

This product is established for an unlimited period of time

Intended Retail Investor

This sub-fund targets informed investors who are advised to invest only part of their assets therein. An investment in a sub-fund is suitable only for investors who are capable of evaluating the risks and merits of such investment and who have sufficient resources to bear any loss which might result from such investment. No guarantee can be given that the sub-fund's objective will be achieved and that investors will recover the amount of their initial investment. Potential investors should consult their stockbroker, bank manager, lawyer, accountant or their independent financial adviser before investing. This sub-fund may not be appropriate for investors who plan to withdraw their money within 5 years.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of Samarang UCITS to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <http://www.samarang.lu/>.

This product does not include any protection from future market performance so you could lose some or all of your investment.
If Samarang UCITS is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 24 September 2021 and 31 January 2025.

Moderate: this type of scenario occurred for an investment between 29 March 2019 and 22 March 2024.

Favourable: this type of scenario occurred for an investment between 30 September 2015 and 25 September 2020.

What happens if Samarang Asset Management S.A. is unable to pay out?

You will not face any financial loss due to the default of Samarang Asset Management S.A. but you will be impacted in case the fund Samarang UCITS is unable to pay you out. The assets of the sub-funds of Samarang UCITS are segregated and held with the depositary of the fund. In case of default of the fund Samarang UCITS, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment. In case of default of Samarang UCITS, you are not covered by any national compensation scheme in respect of your assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 GBP is invested.

Example Investment 10,000 GBP	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	205 GBP	1,304 GBP
Annual cost impact*	2.0%	2.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.9% before costs and 7.6% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long term investment. You should be prepared to remain invested for at least 5 years. However, the Product is an open-ended fund. You can redeem your investment without penalty on a weekly basis during this period, or hold the investment longer. You should refer to the information on costs included in this document to assess the impact of early cash-in on the performance of your investment. The price of the product, reflecting the actual value of the fund, is set each Friday when this is a business day or the next business day (Valuation Day). You must send written redemption requests to the Registrar and Transfer Agent of the fund in Luxembourg no later than 3.00 p.m., Luxembourg time, on the business day preceding the Valuation Day. You will be paid no later than 3 business days following the applicable Valuation Day. For more details, please refer to the provisions of the prospectus of Samarang UCITS. No redemption fees or penalties will be charged at the level of the Product.
